👤 Professional Summary: -

Senior Accountant, DiplFR, with 6+ years of progressive experience across retail, FMCG, chemical, and ICT sectors in Egypt and Saudi Arabia. Currently leading the Commissions Section at Deraah Trading Company, with previous responsibility for banking operations and collections. Experienced in financial reporting under IFRS, ERP systems (Microsoft Dynamics 365 & AX), ZATCA/VAT compliance, BNPL reconciliation (Tamara & Tabby), financial analysis, and Power BI reporting. Proven track record in process automation, strengthening internal controls, fraud detection, and improving operational efficiency. Passionate about driving financial excellence, supporting business growth, and delivering accurate, compliant, and data-driven financial insights.

🎓 Education: -

Bachelor of Commerce, English Section, Accounting Department
Tanta University

2015 – 2019

👛 Professional Experience: -

Senior Accountant 03/2025 – Present
Deraah Trading Company - KSA (Perfumes, Cosmetics & Accessories) Multi-Branch Retail Network [🔗](#)
Riyadh, Saudi Arabia

- Managed the bank section end-to-end, including daily/monthly reconciliations, Sales Store deposit matching, and shortage/surplus adjustments across all branches.
- Developed a Power BI dashboard for shortage & surplus analysis – reduced reporting time and manual effort by 40%, significantly accelerating month-end task completion across the finance team.
- Designed analytical reports that successfully detected fraud by sales representatives in Sales Store POS/card collections (Visa network), enabling corrective action and strengthening internal controls.
- Took full ownership of the commissions section; restructured workflows and automated calculations – reducing processing time and effort by approximately 30%.
- Reconcile and validate installment reports from BNPL platforms (Tamara & Tabby), ensuring accurate revenue recognition and settlement matching.
- Record and review all journal entries; manage AR/AP via Dynamics 365, collaborate with procurement and operations to ensure financial accuracy and compliance.
